EARN MORE INTEREST ON CONVERTED BONDS

Government Will Receive Older Issues in Exchange for Newer Securities Yielding Higher Rate of Income.

More than \$900,000 in increased interest will be paid within the next six months to owners of bonds of the Second Liberty Loan and the First Liberty Loan Converted, if they present their holdings at once for conversion into 4 1/4 per cent bonds. This announcement, which of course applies only to those bond holders who have not converted their securities already, has just been made by the Federal Reserve Bank of Richmond. Government statistics show that there are outstanding in the United States about \$750,000,000 of these bonds which have not been converted, a block of no small size being owned, it is believed, in this state.

Owners of bonds of the Second Liberty Loan should have them converted before November 15, 1919. Bonds of the First Liberty Loan Converted ought to be presented for conversion before December 15, 1919. These securities will be received by local banks in exchange for either coupon or registered 4 1/4 bonds. The new rates of interest will begin on the dates given.

However, unless the bonds are presented for conversion before November 15 and December 15, respectively, the 4 1/4 per cent rate of interest will not begin until May 15, 1920, in the case of the Second Liberty Loan and not until June 15, 1920, on the bonds of the First Liberty Loan Converted. In other words, by waiting until after November 15 and December 15, respectively, the holders of the converted bonds, as indicated, would lose six months interest at one-fourth of one per cent, which on all the unconverted bonds outstanding of the issues named would amount to more than \$900,000.

Bonds of the First Liberty Loan originally paid 3 1/2 per cent. Bonds of the Second Liberty Loan carried interest at the rate of 4 per cent. Holders of the First Liberty Loan were therefore allowed to convert their 3 1/2 per cent bonds into 4 per cent securities known as First Liberty Loan Converted. A great many subscribers took advantage of this offer. Now those who did so and all holders of bonds of the Second Liberty Loan may again increase their interest return by converting their holdings into 4 1/2 per cent bonds, this being the interest rate of the Third and Fourth Liberty Loans.

The man who saveth money
Hath his future guaranteed.
Remorse o'er substance wasted
Is unknown to him, indeed.
Fortune smilith on him.
Things he hath, as he may need.

Thrift is the surest and strongest foundation of an empire; so sure, so strong, so necessary, that no nation can long exist that disregards it—Lord Roseberry.

It is true that many loans, money, and cups of sugar, are forgotten or unpaid. Uncle Sam, however, gives us a bond for our little loans—"lest we forget" he even pays interest on it to make it interesting.

TEXT BOOKS WILL BE FURNISHED TEACHERS

Two Courses Are Issued by Treasury Department and Will Be Sent Free Upon Request.

To further the teaching of thrift in the schools the United States Treasury Department has issued two text books, copies of which may be had by any teacher desiring them. One is designed for use in elementary schools. It gives a suggested outline, the purpose being to shape the habits and character of the school child in the formative period of his life. The second book known as "Fifteen Lessons in Thrift" is to be used in the high schools and naturally is more advanced in the treatment of the subject.

The books are being handled in this district by William R. Timmons, director of the Educational Division of the War Loan Organization, at Richmond, Va. Mr. Timmons will be glad to send copies of the books free of charge to all principals, teachers and instructors who are interested in the subject.

In both pamphlets the lessons are sufficiently flexible to permit the introduction of such local material as has particular interest and value. Thrift and the principle of saving are now being taught in hundreds of schools throughout the country, having been incorporated in the regular work and assigned a place on the schedule ranking with other more important subjects, it being now recognized that the study of thrift is becoming more and more necessary in order that the pupil may be better equipped for the problems of life.

MORE THAN ONE WAY TO PRACTICE SAVING

There are ways and ways of barring the door against the wolf. But until six months ago David Broderick, of Niagara Falls, N. Y., had never learned how to slip the bolt into place. Convicted of a minor offense last January, he was placed on probation, and ordered to take \$12 a week to the probations officer.

Broderick protested, saying that it was impossible for him to pay so much, but agreed to try when he realized that a jail sentence was the alternative. Each week since that time he has paid in his twelve dollars, and at the expiration of the six months term he was handed \$230.50 worth of War Savings Stamps, the result of his saving.

When the justice entered his court room the next day he found on his desk a cigar wrapped in the following note signed by Broderick. "You're a friend of mine. Good luck, Judge." Broderick is now under a voluntary probation period of indefinite length promising to bring in \$10 a week to continue his savings investment.

WHAT BEN DID

Ben Franklin was a thrifty man. To this you'll all agree; Instead of squandering what he got He used frugality.

His wealth increased from year to year.

He won fame and position. But not alone did he succeed In gaining his ambition.

To smooth the way, to help him on, There stood his saving wife, And 'twas this partnership of thrift Gave him a happy life.

Some folks attribute wealth to luck, 'Tis fortune's known foundation—His luck to find a thrifty mate Was Ben's interpretation.

Geography Sixty Years Old.

The rapid development of geography as a college study, since its first appearance in a university curriculum, about half a century ago, is discussed by Prof. R. H. Whitbeck of the University of Wisconsin. In a recent article on "Geography in American and European Universities," published in the Journal of Geography. He points out the following interesting facts:

In 1860 Harvard and Princeton were the only American universities offering courses in geography.

Cornell and University of Wisconsin introduced the subject in 1888, and Yale followed in 1872. In 1900 only 12 American universities taught the subject, but by 1910 thirty-one universities were offering a variety of 142 courses.

With 704 students enrolled in geography, the University of Wisconsin led all others in 1910. With 1,069 enrolled in 1917, it led all others except the University of Pennsylvania. It now offers seven courses in physical and economic geography, climatology and other phases of the subject.

Sung by Request.

They were having a company sing in a "Y" building. The song leader, a lieutenant, asked if there was any particular song the men wished to sing.

The company funny boy, thinking to produce a laugh, yells out: "Let's sing

Molly, get the hammer, there's a fly on baby's head."

"Very well," said the Lieutenant; "suppose you come up and sing it a few times, so that we may learn it." And, amid jeers of his companions, he was forced to get up before the company and sing that single line over and over again, making up the tune as he went.

Discard London Town Houses.

For hundreds of years members of England's wealthy class have maintained their splendid town houses in London. But today, with the perfecting of the automobile and the increased convenience of apartment and hotel, there is a growing tendency to break with tradition and maintain only the country home. This fashionable back-to-the-land movement is expected to have royal sanction, too, as the king and queen will use beautiful old Windsor castle, 25 miles from London, this season, much more than Buckingham palace, in the city.—Popular Mechanics Magazine.
